Highlights

Due to no "SNOW DAYS" this year the last day of school will be on June 16th. It will be a half day, students are out at 11:30.

FIELD DAY
Volunteers needed to set up Field Day for our students. This is the 15th of June Starting at 1:00. Please call the office if you are able to help.

Thank You

Special thanks to Irv Rohrich and the McCabe family for the picnic tables in the playground area. It is so nice for the children to have a place to sit.
Thank you to the Knight's of Columbus for their generous donation to our "students in need" fund. Our students' participation in the laptop raffle helped raise \$750.00 for this great cause.

Class News

Ms. Christina's Class	Mr. Weatherbie's Class	Mrs. Konold's Class
Our preschool students are gearing up for their field trip to the Children's Museum. They are studying pond life, jungle animals and zoo animals. The letters they are focused on are, Y and Z and the numbers are 4, 5, and 6. The bible verse for this month is, "We have come to know the love God has for us." 1 John 4:16.	Mr. Weatherbie is working hard to make sure all the little kindergarten students are ready for first grade. Their journal entries have grown from words to sentences. They continue to use their personal dictionaries. In Religion, they just finished a chapter on ways to praise God. They will going be on a field trip to see <u>Max & Ruby</u> .	Ms. Konold's class is learning about citizenship, the legacy of our country's flag, and the "Star Spangled Banner." In religion, they are learning about the Pentecost and that the Holy Spirit gives us the power and encouragement to carry out Jesus' work. Michael McCabe and Caysea Browne crowned Mary at our May Crowning Ceremony.

Ms. Warner's Class

Ms. Warner's class is currently raising Butterflies. They are in the pupa state at the moment and the students will have the opportunity to watch them transform into beautiful butterflies. The children are working on Washington State reports. They are studying the regions, geography, industries, national parks, Indian reservations, major cities and animals native to their regions.

School News

Mrs. Stiegler taught our students about growing bean plants. She also assisted them with starter pots and came back to help the children plant their beans in the garden. Though the mortality rate was high for the little plants, it was a great experience for the children.
Special Thanks to Mrs. Stiegler for working with our students.
AWARDS CEREMONY IS JUNE 7 @ 1:00
BOX TOPS—We have raised \$175.00 so far keep bringing them into the office.
